Refinement; still going to say not distributing...it was up for the duration consistent for the Poster Session presentation/discussion.

I wouldn't characterize it as a calculation error. Arguably, it is a more conservative evaluation that is faster to perform with the software. The updates will be based on the recommended defaults in the MPPD technical guidance document.

Someone is asking me for a copy; shall I indicate we discovered a calculation error so are not distributing; stay tuned for publication in near future?
